Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On December 12th, 2022, GE Grid Solutions announced the discontinuation of the manufacture and sale of **MM300 and Accessories**.

On 28th June 2023, GE updated the status to Contact GE for availability and enhanced the product description with order codes.

Note: At the time of the consolidated notice publication, **0604-0261** MM300 Connectors and **0604-0277** MM300 Connectors were included in the expanded description but were retracted and remain available for ordering subject to availability.

On 18th December 2023, GE updated the status to Order book closed.

Support

GE's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.
